

Summer Reminders from Nurse Anne

Summer is finally here!! Thank you for sharing your children with me this year.

Just a few summer and fall reminders:

1. All **medication** must be picked up by an adult by June 21st. **NO** medication can be sent home in a backpack.
2. **Physicals** are required for students entering **Pre-K, Kindergarten, 1st, 3rd** and **5th grades**. (Please Note the Change made by the NYS Education for this coming year)
3. All necessary forms for physicals and Over the Counter Permission Slips are on the school website. Please remember I need a Doctor's signature to make the OTC form valid.
4. **HEAD LICE** increase in the summer due to sleep overs and overnight camps
5. **ZIKA** virus: please use insect repellent, mosquitos are most active at twilight, and near standing water.
6. CDC says this will be a big year for **TICKS**; check your children and animals especially after camping or hiking
7. If your child suffers a **concussion** over the summer please let me know, it helps me judge them if they suffer a head injury during the school year.

Enjoy a healthy summer and see you next September!

Nurse Anne
