

AIS Support at Seton Catholic School

Fall 2020

Academic Intervention Services (AIS) are available to students in Grades Kindergarten through Grade 6. AIS may be provided in an ongoing or occasional time frame. Services are made available in “push in “(within the classroom) or small group/individual (in or out of the classroom) settings. Students will not be pulled during any core subjects.

Students who need AIS support on a regular basis are identified through the NYS assessments, iReady assessments, classwork, teacher assessments, and teacher observations. These students may require assistance with math, reading or writing skills. Nearly all students will need a little extra support at some point in their academic journey.

Parents are notified through their child’s teacher if they are identified as a student needing consistent and ongoing AIS support.

If you have any questions please do not hesitate to ask.

Mrs. Bethany Samsonik

AIS Teacher K-6
