## St. Andrew's Area Food Cupboard

Dear friends at Seton Catholic School,

What an amazing collection of foods you sent us! It was a fountain of goodness and generosity. Your open-hearted ♥ giving is such a joy for us, just as nourishing food brings relief and joy to the families who come to us. Just last month, February, we share 855 cans or fresh vegetables with the customers who came here. Each household chooses 5 vegetables. That's a lot of vegetables that you helped to provide along with many other food items on the menu. So we keep food flowing into the neighborhoods with your help. Many leave our doors with the comfort of knowing that they carry the goodness of food, looking forward to its preparation, and telling us how they will cook it. ☺ We are grateful that you will make this possible.

Love,  
Margaret
